Marital Status

Married

Number of Children 1 son 1 daughter

Grand Children: 1

Where do you Live now: Oceanside, CA

Other Places you have Lived

Florida, Texas, Virginia

College Attended & Degrees

Fresno State - 12 units shy of degree

Still Working or Retired

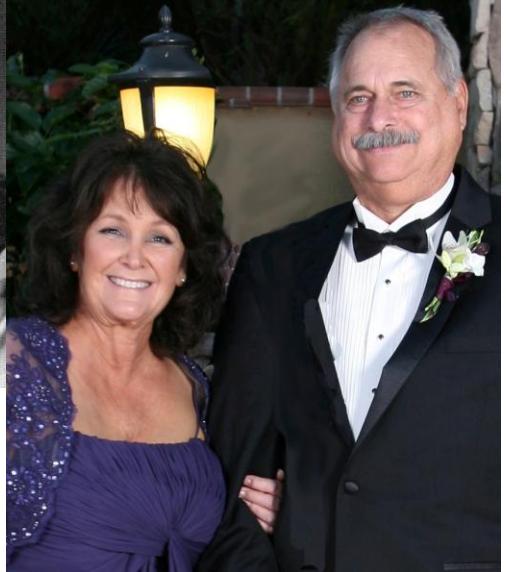

Still getting paid till age 70 (That can't really be right, can it?)

What did you do for a living

Our son is taking over the ag business. He's probably the highest educated ag-pilot around with physics degree from UCI and a masters from USD. Mike and I have a 58 acre ranch in Valley Center and raise Avocados, mangos, guavas and passion fruit.

What do you do for Fun

The most recent adventure was fantastic trip that all of you should try: It was a "Malt Shop Memory Cruise". Performing every night on the boat was a group from our era: The Beach Boys, The Drifters, The Temptations, Martha Reeves and the Vandellas, Brenda Lee, Herman's Hermits, Jan, from Jan and Dean and so many more. They stayed on the ship with us, went to shore with us, ate lunch and dinner with us. We had sock hops, hula hoop and twist contests, pajama parties...they even had a prom...it was crazy, but oh what fun! You already felt like you knew everyone because we were all from the same generation, enjoying the same music. I love being with our kids and grandson...I can't wait to teach him how to play poker, but he's only 4

right now so we're still with Old Maid and Fish. War is the latest card game! Mike and I have traveled to some interesting countries!

Accomplishments in your Life

My family life. My kids are amazing and really well educated. I'm really proud. They live close which is wonderful. The good lord has blessed us. I worked for United Airlines while in school...flying during the summer and working on campus during the school year as an employment rep. Then worked as a book-keeper for our company...I kept trying to do things my own way, but our accountant prevailed.

Best High School Memories

So Many. I think the slumber parties were the best!

Favorite Teacher and Why

Mr. Odum...I didn't know how to take class notes before him.

Favorite Class and Why

Mr. Regan...He let us make choices... would sit on the desk & we could just talk. I think we all finally realized that if he didn't lecture, we may not do very well on our tests!
