**Accomplishments in your Life**

Still working on becoming the best I can be - my parents were very positive role models. Am so proud of the two wonderful young men who are my grown sons.

**Best High School Memories**

My girlfriends!! Their caring and support and sense of fun sustained me then and has continued through the years. The party Gary Turner gave our freshman year - we made many new & some lifetime friends in our class. After-game dances with my boyfriend . The song Surfer Girl. The small town of Oxnard on the coast gave us the beach, a fairly safe

environment to explore as adolescents, and the opportunity to be part of a high school with great diversity. It felt good to walk down the halls between classes and say hello to so many nice people. Funny memory - the students being told to look at Reader's Digest Magazines while Mrs. Leskinen went awol during much of my English class. This resulted in craziness & chaos, of course. Embarrassing? Tim Doyle constantly teasing me about being too skinny.

### **Favorite Teacher and Why**

Mr. Odum - he approached academics seriously and prepared students for college classes.

### **Favorite Class and Why**

World History classes - Mr. Bittner and Mr. Odum - they made history come alive.
