Retired

What did you do for a living

I represented waterfront employers and shipping companies in their dealings with trade unions.

What do you do for Fun:

I like to hang with my wife, who is the joy of my life. In no particular order I also like to ski, hike locally, pack into high lakes in the Sierras, fish, cook, bike, golf, travel (usually to France so I can torture the natives with my terrible french), do finish carpentry, work in my new garden, visit the wine country, go to the theater, and pursue anything else that comes up that looks like fun. I am never bored.

Accomplishments in your Life

I got a few big things right that have made all the difference in my life. 1) I always put family first, friends second, work third. 2) I started saving and investing when I was young so I have the benefit of a comfortable retirement now. Everything else is details.

Best High School Memories

My fondest memory from that era is the years I spent surfing with Dan Phillips, Carl Jacobson, the Pearsons, and Jeff Grimes. What great fun! Were it not for the draft making college attractive I could have spent my life as a beach bum.

Favorite Teacher and Why

Tough call here as there were a number of teachers who made a real difference in my life. Mr. Reagan's Senior English class gave me the skills to avoid bonehead English in college. From Miss Wintz I learned public speaking, which served me well throughout my professional life. Many thanks to both.
